invite you to fight violence against women by establishing
**a European Year of Combating
Violence against Women.**

WHY?

This concerns not only you but also your next door neighbour as well as your own family members. There is no geographical, financial, cultural or social limit to this human rights violation.

It is high time we aroused public awareness to this sinister crime. Abused women should no longer be ashamed and be silent. Violent men should be taught to be respectful to women and to be responsible to the society and to their own helpless children.
